

Use case: Data analysis

The need:

A production manager needs to view and analyze the performance of the production line MW3 since the beginning of the year.

Analisi standard:

Data collection from ERP systems and MES, analysis in Excel, involvement of multiple team members to verify the data, and creation of dashboards in BI systems.

Vertalis:

5 minutes conversation with **JOE**

Here a chart of the last 6 months of the performance of the production line MW3

Overall equipment effectiveness: 78.4%

Peak performance in June: 82.1%

Lowest in April: 64.2%

Benefits and ROI:

- Elimination of usage barriers
- Real-time data analysis
- Setting notifications based on defined criteria
- Time reduced from days to minutes

Turning complexity into clarity
